EXPERIENCE

Koii Network — *Frontend Developer & Technical Writer*

OCTOBER 2022 - AUGUST 2023

• Developed and maintained frontend components using React, Next.js, TypeScript, and various web3 libraries, including wagmi.js.

• Authored high-quality technical tutorials, enabling developers to build applications on the Koii Architecture.

• Led the documentation initiative by migrating from Gitbook to Docusaurus, and authoring comprehensive documentation covering features, releases, and announcements.

• Actively engaged with the community on Discord, providing timely support and answering technical inquiries.

Subsocial — *React Developer*

JANUARY 2022 - MARCH 2022

• Collaborated with the core team members of Subsocial to improve the UI of the Subsocial dapp and add new features to SubId.

Loctech — *Frontend Developer*

JANUARY 2021 - DECEMBER 2021

• Collaborated with a cross-functional team to develop Enterprise Resource Planning (ERP) applications for leading engineering service companies in Nigeria.

• Wrote automated tests to ensure the efficiency of the code.

Zebullon — *Frontend Developer*

SEPTEMBER 2020 - DECEMBER 2020

• Built landing pages for SMEs to increase the conversion of their offerings.

• Engaged with business owners to define the scope of their business application.
